RISE OF THE REBELS

**NEW ADVENTURES IN A
GALAXY FAR, FAR AWAY....**

It has been fourteen years since the Galactic Empire's rise to power.

Systems everywhere have fallen under the Emperor's evil control. Stormtrooper legions guard Imperial-occupied worlds, and fleets of Star Destroyers patrol the space-lanes.

*But all hope is not yet lost. On the distant world of Lothal in the Outer Rim, a small band of rebels resists the Empire's tyranny. Striking from their starship, the *Ghost*, they create trouble for the local Imperial forces and help any civilians they can, leaving only their symbol behind at the scene.*

**The adventures of the Rebels have begun!

AT-DP™ ON GUARD!

The Empire has just deployed its latest state-of-the-art vehicle, the mighty AT-DP (All Terrain Defense Pod). With these armored walkers patrolling Imperial-occupied planets across the galaxy, those pesky Rebels won't stand a chance...or will they?
